

EFFORTS TO INDUCE HIM TO WITHDRAW FROM MAYORALTY CONTEST BEING MADE.

TO CRIPPLE JOE LIPPMAN

With the announcement by Mayor John S. Bransford that he will accept the nomination on the American ticket if tendered him comes redoubled efforts on the part of his supporters to induce H. G. McMillan to withdraw from the mayoralty fight in favor of Bransford in order that he may have a better chance against Lippman. It is conceded that McMillan has no chance, and his withdrawal will mean a consolidation of all the anti-Lippman forces.

It is believed that Lippman might otherwise corner the American nomination, the Kearns forces might have hesitatingly come out for Bransford. Others of the morning paper on Sunday announced that Bransford would permit his name to be used at the convention by the Democrats, who asked Bransford to become a candidate the names of Thomas Kearns, David Keith, Frank Seifert, and others of the Kearns clique did not appear. The request was signed by E. A. Wall, W. Mont, Perry, W. W. Wall, and others. Bransford, Tony Jacobson, A. Fred Wey, G. S. Holmes, C. M. Trent, L. L. Terry and Henry Newell.

In spite of the lack of enthusiasm on the part of the American group, they will be forced to come out for Bransford and to retract their former attacks on the mayor in order to prevent Lippman's nomination. They had preferred McMillan to Lippman, but when they found that McMillan was beaten to a standstill, they were forced to choose Bransford as a last resort.

The American supporters of Bransford are endeavoring to dissuade him from accepting nominations or endorsements on either the Citizens' or Democratic ticket. They fear that acceptance by the mayor of such nominations would mean the endorsement of the other platforms, which, of course, will be at wide variance with the American platform, and the result would be to accept the Democratic nomination. Another reason why they do not want to accept the Democratic nomination is that he would not then be bound alone by the American party in case of his election, but the other platform would have to be recognized by the mayor as factors in his election.

Democratic Convention. The Democrats of Salt Lake will hold their city convention in the Federation of Labor hall tomorrow evening. The Democrats feared that there were not enough members of their party left to fill their lists of delegates, so they will dispense with primaries and will nominate their ticket in a mass convention. All Democrats in the city are urged to attend the convention in order that there may be enough votes to fill the five places on the city ticket.

Mayor John S. Bransford will probably be borrowed from the Americans temporarily to head the Democratic ticket. It is said that D. P. Felt and John S. Critchlow are always available in case any of those who are not tagged when they are not looking rebel.

According to the Democratic slate, A. N. McKay was to be the name of the man on the ticket as a candidate for city recorder. With considerable grace Mr. McKay explains that his business interests will require his absence from the city for a portion of the time and that therefore he would not have time to do justice to the duties of the office. The name was open for Dave Felt and John Critchlow.

The absorbing interest in the contest for the mayoralty nomination on the American ticket overshadows the fight for the minor offices. The name of the man who will be nominated for city treasurer without opposition, Rudolph Alf is suffering from some indisposition, and the leaders, and as a result any one of a half a dozen aspirants may be the American party's candidate for city auditor. J. E. Moreton will try for the council, and Ben. Tives and Ed. Pike are seeking his place as recorder.

WANTS RAILROAD TO PAY FOR LOST TOOLS

The loss of a chest full of tools, said to be valued at \$250, has found its way into the district court yesterday, the filing of an appeal by the Denver & Rio Grande railroad in the case yesterday by the railroad company. The suit is against the company by E. M. DeWalt in the justice court of Stanley A. Hanks and judgment rendered in favor of DeWalt for \$250. The suit is accounted for in the fact that DeWalt finally found the chest, but only one tool was left in it, which was valued at \$10. DeWalt held the railroad company responsible for losing the chest, which he had checked to Salt Lake.

JUVENILE COURT MAY SOON HAVE NEW ROOMS

A meeting of the juvenile court commission was held late yesterday afternoon in the office of the Honorable William Spry, but no decision was reached in regard to offices for the court in the Salt Lake district. It is probable, however, that the court will soon have quarters on the fifth floor of the city and county building. In the meantime, the court is held in the state food and dairy commissary and the state coal mine inspector.

NEW INSTRUCTOR IN MANUAL TRAINING

Edward S. Greenwald, a graduate of the Pratt Institute of Brooklyn, N. Y., began work yesterday as instructor of manual training in the elementary grades of the public schools of Salt Lake. Mr. Greenwald is a Lutheran and speaks German fluently. He was granted leave from the Pratt Institute five years ago, where he took normal art and manual training.

The Central Coal & Coke company has made no change in the price of Rock Springs coal, and is still selling it at \$5.75 per ton.

ANOTHER TAG DAY will be held by the local Y. P. C. next Sunday. Much of the tagging will be done in the forenoon by the young women of the various Young People's Christian unions. The work will be done to a great extent in the churches, and especially during the morning services. The penalty of being tagged will be attendance at the Young People's rally that will be held in the First Congregational church at 6:30 p. m. of the same day.

Mrs. Winslow's Soothing Syrup. has been used for YEARS by MILLIONS of MOTHERS for their CHILDREN WHILE TEETHING, with PERFECT SUCCESS. IT SOOTHES THE CHILD, SOFTENS THE GUMS, ALLAYS ALL PAIN, CURES WIND COLIC, and is the best remedy for DIARRHOEA. Sold by Druggists in every part of the world. Be sure and ask for "Mrs. Winslow's Soothing Syrup," and take no other kind. Twenty-five cents a bottle. GUARANTEED UNDER THE FOOD AND DRUG ACT, June 30, 1906. SERIAL NUMBER 1905.

DIED. LARSON—In this city, Sept. 13, 1909, John Larson, aged 75 years. Father of Mrs. A. H. Steele. Funeral services will be held from O'Donnell & Co.'s chapel on Wednesday, Sept. 15, at 4 p. m. Interment at Mt. Olivet. Friends invited.

ALARM FAIRLY TOO

Thief Enters Jewelry Store and Steals Valuables While Bell Rings.

A burglar rifled the cash drawer of the J. S. Jensen Jewelry company, 33 South Main street, early this morning, while the burglar alarm which he had set off when he entered through a rear window rang in vain. He made away with jewelry trays containing articles of unknown value. At 1:30 o'clock Patrolman Tinges, attracted by the insistent call of the burglar alarm, found the transom over the rear entrance to the shop shattered. A box had been placed against the door, upon which the thief cut himself on the broken glass, making a trail of blood as he prowled about the room. As A. S. Jensen, proprietor of the place, could not be roused early this morning, no estimate of the loss can be made.

A private safe may be rented in the fire and burglar proof vault of the Salt Lake Security & Trust Co., 52 up Main street, \$2.00 per year and upwards.

AS A MODEL

Eulogy of the Late Union Pacific President by Trinity Church Clergyman.

New York, Sept. 12.—Before a crowd of several hundred in Wall street today Rev. Dr. William Wilkinson, one of the clergy of Trinity church, delivered an eulogy on the late Edward H. Harriman. Dr. Wilkinson mounted a chair opposite the stock exchange at the noon hour and soon had a good chorus of "Amen" around him. Ten years ago Mr. Harriman chartered a vessel and went to Siberia. He took with him Archdeacon Nelson of New York, and together they visited the whaling fleet and gave real encouragement to those men who rarely ever had a chance to go to church. Mr. Harriman was a good Christian. He left nothing to be desired in his social and religious life. Often during his life Mr. Harriman would say to those with whom he came in contact, "I want you to go to church." Mr. Harriman, I have been told—never knew Mr. Harriman myself—was a model man in Arden, where he lived. He was upright and noble all through his life. Many of you young men around me are in better circumstances than Mr. Harriman when he was your age, and if you do as he did, perhaps in time you will reach the same position. I want to impress upon you that all rich men are not scoundrels. The poor men are not knaves and fools. To be is higher than to have.

DETERMINED TO COMPLETE

Mexican Engineer's Estimate of the Wild Rush of Water in Mexico.

San Francisco, Sept. 12.—Two persons were seriously injured and five others badly bruised and shaken today by the explosion of a water pipe in the basement of the Lurline tub bath establishment on Geary street. The force of the explosion was so great that two walls were thrown out and the interior of the building badly wrecked. Richard Dunne, the most seriously injured, was passing the structure when the explosion occurred and was thrown twenty feet into the air. He was badly bruised and cut and possibly a fractured skull. William Hanson, the engineer, who was standing on the second floor directly above the heating apparatus, was buried in the debris and badly cut and bruised. Besides sustaining a fracture of the left leg. The other four of them were thrown, and their injuries are trivial, though the women suffered from the shock. The man whose name is not known, and who was over 70 years of age, announced that he intended to finish his bath when he found out what had happened.

GRAND CENTRAL MINING CO. GIVEN \$151,030.34 DAMAGES

Continued from Page 1.

The assignment of errors was overruled by the supreme court, however, and the district court upheld. The Mammoth mining companies has probably cost more in attorneys' fees and court costs than any other in the history of Utah. The Mammoth mining companies has been sued by the state of Utah. The Mammoth mining companies has been sued by the state of Utah. The Mammoth mining companies has been sued by the state of Utah.

FOUR JUDGES START TERM WITH BIG DOCKETS

The four district judges of the Third district opened court yesterday for the September term. Judge C. W. Morse was in Tucson, Arizona, but will be in Salt Lake today. Judge M. L. Ritchie started on the condemnation suit of Salt Lake against the East Jordan Irrigation company. Judge George G. Armstrong started with a jury trial. Judge T. D. Lewis was busy with the setting of criminal cases.

RESIDENTS PROTEST ON SALOON IN NEIGHBORHOOD

At a short meeting of the county commissioners yesterday a petition from 20 residents near Twelfth South and West Temple streets was read asking that a saloon conducted there by a Mr. Bess be closed. The commissioners will make an investigation in a short time, and may take the place is run on Sundays.

NEITHER GOOD NOR BUSINESS

President Taft Put in Yesterday Preparing for Long Trip to the West.

Beverly, Mass., Sept. 12.—President Taft gave up his golf game and all official business today and devoted himself to preparing for the long western trip, which will really have its beginning when he motors into Boston tomorrow afternoon to attend a chamber of commerce banquet. The president will pass the night in Boston, leaving there for Chicago at 10 a. m. Wednesday. Mrs. Taft expects to remain in Beverly until November 12, when the president plans to arrive here to take her back to Washington. The executive offices will close immediately the president leaves Beverly. All the clerks and attaches will go to Washington at once.

BUTTE PASTORS ON WARPATH

Propose to Prosecute Owners of Houses Leased for Immoral Purposes.

Butte, Mont., Sept. 12.—The ministers of Butte will prosecute every owner of a house leased for immoral purposes, according to the resolutions adopted at the meeting of the Butte Ministerial association in the First Baptist church today. According to the ministers investigating the saloon question, the anti-wine room law is being violated to an alarming extent. The committee of the association will draw up a complaint and present it to the city council at the next meeting of that body. The ministers will go over the heads of the city and county police authorities and seek direct reform from the hands of the mayor and city council. Should this mean be of no avail, the ministers say they will appeal to the governor.

The state law that provides a severe penalty will be strictly enforced if the ministers have their way. It is the intention of the ministers to determine the identity of the owners of all the so-called "cracks" in the red light district. As soon as the owners of these places are identified, the ministers say they will file complaints with the authorities with a view to a religious prosecution. The law imposes a severe penalty for the persistent violation of this law.

FLOOD CARRIED AND BEFORE IT

Mexican Engineer's Estimate of the Wild Rush of Water in Mexico.

Mexico City, Sept. 12.—James D. Schuyler, an American engineer, who recently accompanied President Taft on a tour of inspection of the Santa Catalina river, declared in an interview today that the rush of water in the recent Monterey flood, which destroyed many lives and property, exceeded the flow of Niagara by 48,000 cubic feet per second. He based his statement on records furnished him by competent engineers. Mr. Schuyler said: "The volume of water that swept down the Santa Catalina river during the flood was 270,000 cubic feet per second. Niagara, I understand, carries a volume of water amounting to 220,000 cubic feet per second. The Santa Catalina watershed comprises 64 square miles, so that the estimated discharge of water during the height of the flood was 500 cubic feet per second per square mile. The discharge of Estuazuela was 50 cubic feet per second per square mile. The highest flood ever heard of before was not more than 20 cubic feet of water per second per square mile. As much as 20.5 inches of rain fell in Monterey in 28 hours from Aug. 26 to Aug. 28. A few days before that time 14 inches fell in 42 hours, making a total rainfall of 24.5 inches in 149 hours."

CLASSES IN THEOSOPHY.

Initial Meeting to Study the Science Is Held.

Following the lectures of Mrs. Annie Besant and other theosophical lecturers, arrangements are being made to organize theosophical study classes in Salt Lake. The initial meeting to organize this work was held last evening at the home of Mrs. Westworth Rice, a prominent local theosophist, and William Munson of Anchorage had charge of the meeting. The proposed line of study was outlined, and plans formed for holding weekly study classes. It was decided that no effort would be made to induce anyone who studied the work to become a member of the Theosophical society.

LITTLE GIANT

Council Refuses to Allow Proposed Mining Work in City Watershed.

The scheme for the digging of a tunnel in the mountain on the east bank of the north fork of City creek, 11 miles from the city, and for the establishment of a boarding house on the City creek watershed, to operate the Little Giant mine, was knocked out of the ground last night by a report from A. F. Doremus, of the city engineer's staff, submitted to City Engineer L. C. Kelley, and by him to the council. Councilman L. E. Hall also attacked the proposition on the ground that the tunneling of an industry is the canyon would contaminate the city's drinking water. The mining company proposes to build a tunnel in the mountain to connect with an old tunnel, hoping to strike a rich vein of silver-lead ore. Three men are now working the mine, but test more would be put on for the new work, thus necessitating a boarding house. The company also wants to haul timber down City Creek canyon in wagons, and to pay the city a royalty for allowing the use of the canyon.

President Davis of the council appointed Councilmen W. Mont Perry, Henry Cowen and George G. Armstrong as a special committee to visit the proposed tunnel site with Mr. Sawyer, some time this week.

STATEMENT AS MADE BY MORRIS

Delegate Is Quoted Correctly, Notwithstanding His Denial as Published.

George Q. Morris, a delegate from the Twenty-eighth district to the city convention of the Citizens party, when asked for his views concerning the Citizens movement, made this statement: "I am thoroughly in sympathy with the Citizens movement. I shall support Mayor Bransford if he is a candidate for the nomination. However, I may not care to say whether or not I will support him for the nomination in the Citizens movement. My district did not instruct its delegates, and what discussion there has been of Mayor Bransford as our candidate is only informal."

Mr. Morris made this statement Saturday evening and he was so quoted in The Herald-Republican of Sunday morning. Since the statement appeared in The Herald-Republican Mr. Morris has made no correction. In an evening paper of yesterday, however, there is published a signed statement purporting to come from Mr. Morris in which the interview practically in its entirety is denied.

In spite of Mr. Morris' denial the interview as published Sunday morning and as republished this morning is correct.

DELIGHTFUL MUSICAL EVENT

One of the most delightful musical events that has taken place in Salt Lake for some time was the reception tendered to Mr. and Mrs. L. A. Torrens of Chicago by the musical people of Salt Lake last evening.

The vocal numbers given by Mrs. H. M. Woodway and Miss Gertrude Kastholm, both pupils of Professor Torrens, was most pleasing, while the instrumental selections of Professor J. J. McMillan and George Seaton won great applause. Following the program an informal reception was held, the church being filled with representatives of the musical people of Salt Lake, who embraced this opportunity to meet their well known musicians.

CURES

The cause of all skin diseases can be traced to some humor or acid in the blood; the cuticle is always healthy where the circulation is free from impurities. When the blood is infected with acid or unhealthy matter it cannot perform its natural work of nourishing the skin, regulating its temperature and preserving its normal softness, pliability and healthfulness. Instead it irritates and inflames the delicate tissues and causes the pores and glands to produce some of the many forms of skin disease. The itching and stinging so often accompanying skin affections are produced by the deposit from the blood of the acid humors with which it is filled, into the sensitive membranous flesh lying just beneath the outer covering, and surrounding the countless nerves, pores and glands. This explains why scratching the outer skin affords no relief from the itching and burning. S. S. S. cures all skin diseases of every character by purifying the blood. It goes down into the circulation and removes the humors or acids which are causing the trouble, builds up the weak, acid blood, and permanently cures every variety of skin affection. Local applications can only soothe; they never cure because they do not reach the blood. S. S. S. goes right into the circulation, reaches the trouble and cures it by removing the cause. Book on Skin Diseases and any medical advice free to all who write.

OFFICIAL WILL FIGHT THE CITY

Member of Board of Public Works Will Antagonize Improvement.

A member of the board of public works and at the same time fighting the city in an improvement which means much of benefit to Salt Lake is the peculiar position in which C. P. Brooks finds himself in the condemnation suit of the city of Salt Lake against the East Jordan Irrigation company, which was started yesterday before a jury in Judge M. L. Ritchie's division of the Third district court.

Mr. Brooks is engineer for the East Jordan canal, and is in the fight in his private capacity in an effort to block the widening of the canal for municipal use. One-fifth of the stock in the East Jordan Irrigation company is owned by Salt Lake City, amounting to the right to appropriate 34 cubic second feet of water from the canal. The East Jordan canal brings water through the Jordan river from Utah lake. Through the part ownership of the city in the canal, the demand is made to enlarge the stream to a capacity of 320 second feet for the purpose of delivering the water at a higher rate in the city's scheme for a municipal water system.

It is claimed by the city that the enlargement of the canal would in no way injure the rights of the company. The irrigation company, it is claimed, would have the same four-fifths portion of water, and the city would bear the cost of delivering the water at a higher rate in the city's scheme for a municipal water system.

A jury was obtained in a short time. When City Engineer L. C. Kelley was called by the city to question on technical points, A. F. Doremus, who has been working with the city engineers in water suits, was on the stand most of the afternoon.

NOTICE OF INCORPORATION

Of "Gunnison City."

STATE OF UTAH, OFFICE OF THE Secretary of State. I, Charles S. Tingey, secretary of state of the state of Utah, do hereby certify that there has been this day filed in my office certified copies of papers filed in the office of the county clerk of Sanpete county, together with record entries and said office relating to the matter of the incorporation of "Gunnison City," certified by the said county clerk as being true copies of all papers and record entries in said matter in his office, from which it appears that the provisions of Section 176, and 177 of the Compiled Laws of Utah, 1907, relating to the incorporation of cities, have been complied with; that the said city of Gunnison is a city, and that the said city has been designated as a city of the third class. Now, therefore, I, the Secretary of State, do hereby certify that the said city of Gunnison is a city of the third class.

Beginning at the quarter corner between section seven (7) and eight (8), township 19 south, range 1 east of Salt Lake meridian, thence running south one hundred and eighty-three and 2/3 minutes east, thence south 89 degrees 30 minutes east two hundred chains, thence north one hundred and eighty-five and 2/3 minutes east to center of section 19, township 19 south, range 1 east, thence west two hundred chains to place of beginning, with the incorporated into a city under the name of "Gunnison City" and designated as a city of the third class.

In testimony whereof, I have hereunto set my hand and affixed the Great Seal of the state of Utah, this thirteenth day of September, A. D. 1909.

(Seal) C. S. TINGEY, Secretary of State.
